COMPANY OVERVIEW

Who We Are

Vrudhdhi System & Service is a Vadodara-based technology solutions provider serving corporate offices, manufacturing plants, government institutions, government schools and commercial establishments. Our capabilities cover CCTV surveillance, computers, laptops, printers, networking, optical fiber, servers, storage and technical support.

What We Deliver

- Turnkey survey, design, supply, installation and commissioning
- Clear BOQ, labeling, test records and handover documentation
- Solutions aligned with approved scope and site requirements
- Responsive troubleshooting, maintenance and AMC support

Where We Work

- Manufacturing plants and industrial facilities
- Government offices, schools, hostels and institutions
- Corporate offices, warehouses and commercial buildings
- Vadodara base with multi-location project support

Why Clients Choose Vrudhdhi

Turnkey Ownership

- One accountable partner from site survey and BOQ through testing and handover.

Measured Delivery

- Project-specific checks, records and acceptance against agreed scope.

Site-Aware Execution

- Work planned around access windows, PPE and client safety requirements.

After-Sales Support

- Structured escalation, troubleshooting and maintenance options.

2016	PROPRIETORSHIP	24ARQPR2457P1ZX	10+ SCHOOLS

TECHNOLOGY SOLUTIONS

Core Services

Scalable solutions for corporate, industrial, government and educational environments.

CCTV Surveillance & VMS

- IP/HD camera supply and installation
- NVR/DVR/VMS configuration and remote viewing
- Recording-retention planning and handover

Structured LAN & Wi-Fi

- Cat6/Cat6A cabling, I/O, patch panels and racks
- Managed switching, VLAN and Wi-Fi integration
- Labeling, cable dressing and documentation

Optical Fiber & OTDR

- Single-mode and multi-mode fiber installation
- Fusion splicing, ODF termination and restoration
- OTDR trace reporting and loss summaries

Servers, NAS & Data

- Server and NAS supply, installation and migration planning
- User access, backup, storage and network integration
- Existing-system assessment and phased transition

Computers, Laptops & Printers

- Business desktops, laptops and CAD workstations
- Printers, multifunction devices, scanners and peripherals
- Installation, diagnostics and warranty coordination

GeM Supply, AMC & Support

- Government IT equipment supply through GeM
- Installation, commissioning and acceptance support
- Preventive maintenance and on-site troubleshooting

Scope-Based Commitment

- Performance, response time, acceptance criteria and warranty commitments are defined in the approved quotation, BOQ, scope of work or AMC agreement.

EXECUTION FRAMEWORK

Project Delivery

A controlled workflow from first survey to documented handover.

01 Survey

- Requirements, routes and constraints

02 Design

- Architecture, quantities and BOQ

03 Approve

- Scope, brands, schedule and safety

04 Execute

- Supply, installation and configuration

05 Test

- Functional checks and records

06 Handover

- Reports, warranties and sign-off

Representative Capabilities

Industrial Fiber & CCTV Delivery

- Armored fiber installation, fusion splicing, OTDR reporting, IP CCTV, network material and rack work for industrial and multi-site environments.

Enterprise Infrastructure Planning

- Server/NAS migration planning, user-access design, CCTV network segregation, structured networking and operational documentation.

Typical Handover Deliverables

- Approved BOQ and installed asset list
- Cable labels and rack/port schedule
- IP/device register and configuration summary
- Warranty documents and completion report

Client & Project Confidentiality

- Client names, institution names, site photographs, purchase orders and network details are shared publicly only after written client approval.

GEM & PUBLIC-SECTOR SUPPORT

Government & Education Capability

Vrudhdhi System & Service supports government procurement through the Government e-Marketplace (GeM), including supply, installation, commissioning and after-sales support of IT, surveillance and office equipment.

Government Supply & Deployment

- Desktop computers and business laptops
- CCTV cameras, DVRs, NVRs and accessories
- Printers, multifunction printers and scanners
- Switches, Wi-Fi devices, racks and structured cabling
- Storage, peripherals and related IT equipment

Education-Sector Support

- Government schools and educational campuses
- Computer-lab setup, LAN and Wi-Fi connectivity
- School CCTV and recording-retention planning
- Desktop, laptop and printer deployment
- Printer network configuration, test printing and handover
- Asset labeling and scheduled technical support

10+ GOVERNMENT SCHOOLS SUPPORTED

Experience in CCTV surveillance, computers, laptops, printers and related IT support for government schools in Vadodara under approved work orders and service requirements.

Government Order Execution

01 Requirement & BOQ

- Review quantities, specifications and scope before quotation or bid.

02 GeM Documentation

- Technical compliance, product data and commercial documentation as applicable.

03 Supply & Commissioning

- Delivery, installation, configuration and acceptance under approved order.

04 Warranty & Service

- Warranty coordination and support under agreed terms.

Institution names and references are not published without prior written permission.

ASSURANCE

Quality, Testing & Documentation

Clear acceptance criteria and traceable handover records for each approved scope.

Optical Fiber

- Visual inspection, cleaning and continuity
- Fusion-splice quality review
- OTDR trace and link-loss summary as specified

Copper & Network

- Continuity, wire-map and link testing
- Port, VLAN and connectivity verification
- Cable and rack labeling with schedule

CCTV & Recording

- Camera view, focus and coverage verification
- Recording, playback and remote-access checks
- Storage and retention planning based on approved requirements
- NVR/VMS settings and user handover

Computers, Printers, Servers & Storage

- Hardware diagnostics and functional validation
- Printer/network configuration and test printing
- Storage, backup, access, warranty and asset summary

Project Documentation Pack

Technical Records

- BOQ and asset register
- Cable/port/IP schedules
- OTDR traces or applicable test records
- Configuration and backup summary

Handover Records

- Warranty and product documents
- User/admin handover record
- Corrective-action closure
- Completion and sign-off report

Site Safety

- Work is planned according to client-approved access, permit-to-work, PPE and EHS requirements applicable to the site and agreed scope.

CONTACT & COVERAGE

Vendor-Ready Support

Structured information for RFQs, site surveys, government procurement and corporate vendor evaluation.

Industries We Support

- Manufacturing and engineering plants
- Packaging and warehouse facilities
- Corporate and commercial offices
- Government offices, schools and hostels
- Retail, institutional and multi-site operations

Documents Available on Request

- GST Registration and Udyam certificates
- GeM and technical-compliance documents
- Project BOQ, quotations and commercial terms
- Warranty, test and handover formats
- Non-confidential capability summary

Service Coverage

Vadodara Base

- Local coordination

Gujarat Coverage

- Scope-based service

Western India

- Project mobilization

Multi-Location

- Scheduled support

Mobilization, response time and site support are confirmed according to project scope, location and schedule.

Let's plan your next project
